BASKETBALL

GAMES TOMORROW NIGHT AT THE GYM.

Indians and C. C. & W. and L. & P. and D. A. D.'s Will Contest

Two good games are promised tomorrow night in the basketball league. The Indians will try and wrest the honors from the C. C. & W. quintet, while the D. A. D. and the Light & Power teams will have a game. The pennant race is just getting under way, and no team has a cinch on the bag. The attendance of the games this season has been excellent. Nearly every game has been attended by a full house. Financially the league is a big success. It is expected to award the winning team with a handsome cup, while if possible a banquet will be given the players.

The Knights of Columbus basketball team has thrown up the sponge. Unable to win a game, and the small number of candidates for the team, discouraged the promoters, and the lodge will not be represented in the city basketball league.

Fears Concerning Supreme Court Decision in Most Cases Bear the Market.

MONEY SHOWS EASIER TENDENCY

New York, Jan. 31. (Special.)—That the market has received fresh shocks this week, showing marked declines and corresponding rallies with unexpected frequency. Fears concerning the forthcoming decisions of the United States supreme court on the Tobacco, Standard Oil and Union Pacific cases were the main causes of weakness. The decline was accelerated by increased aggressiveness on the part of the bear contingency; whose operations were chiefly incited by working upon these apprehensions. It is known that a number of our leading capitalists are quite concerned about the tenor of these decisions, which may come very shortly or may be deferred for several months. Should they be unfavorable, it will, of course, be necessary for many unlawful corporations to reorganize. This will involve some disarrangement of plans; more or less temporary disorganization, and possibly some disappointment in certain financial circles. There is, however, no ground for undue anxiety regarding the effect of these decisions. Previous decisions by the supreme court in its interpretation of the Sherman anti-trust law have always been on conservative lines, and there is no reason for anticipating any serious departure on this occasion. It will be remembered that financial chaos was predicted in the event of an unfavorable Northern Securities decision. That decision was unfavorable yet the effect was not what was anticipated. The companies concerned immediately complied with the law and went on doing business as before without injury. The same will probably be true regarding the great corporations now under trial. They may be obliged to reorganize, with more or less temporary inconvenience, but they are quite likely to continue in the business of refining oil, preparing tobacco and carrying freight just as before. As Mr. J. J. Hill recently remarked, the other day: "What difference will it make whether owners have one green certificate to represent their interests or two red ones?" As for the policy of President Taft, there is no reason to anticipate that he will carry it out in reckless fashion. Mr. Taft's disposition is to conserve and not destroy property interests, and in any event he can do neither more nor less than aid in the prosecution of law-breaking corporations. Not a few of our large corporations have been illegally put together, and proper reconstruction will in the end do good and not harm. Especially where monopolies are checked and their power for injury prevented the effect of the decisions be beneficial. Some day investors will come to realize that no industrial security earning large profits based purely on monopoly can be regarded as having value of permanent stability. Industrial monopolies—those based on patents excepted—are regarded as against public welfare and will always be exposed to popular attack; hence their undesirability as investments.

Stock.
While there are reasons for un-settlement as noted above, the fact should not be forgotten that the better class of stocks have now reached a point where they are sure to attract the attention of the investor. With a decline of 10 to 6 points in many of the best issues, it is evident that their investment qualities are much better than three months ago. Stocks are now being quietly picked up by shrewd buyers for permanent holding, and should the decline go much further it will be found that the floating supply of securities has been materially diminished. Stocks have gone from weak into stronger hands in considerable volume, and the possibility of the bears meeting with further success on the decline is constantly diminishing. Fundamentally, conditions are sound, and the prospects are that before midsummer the market will reach a considerably higher level than the present one. While the present tone of uneasiness continues it is not impossible that still lower prices may be reached, but the better class of stocks can be considered as a purchase upon all pronounced breaks for the market is near bed-rock figures and any important decline is sure to bring out strong buying.

The bond situation is not satisfactory owing to the fact that at present level stocks are more attractive. A number of new issues are still held back awaiting more favorable financial conditions, and nothing is likely to assist more in this respect than the recent severe decline. Secretary MacVeagh's bond tax proposal is not likely to command general approval. It is at best an expedient and not a cure. Short term obligations until currency reform is possible and no harm would follow the government paying better rates for money just as other borrowers have been obliged to do.

Money.
The money market shows somewhat easier tendencies. Funds are returning more freely from the interior, and the surplus reserves are rising in consequence. The situation abroad is also favorable in this respect. Considerable ease prevailing in London, Paris and Berlin. The great floods in France, causing a loss estimated at between \$100,000,000 to \$200,000,000, must have some effect in Paris, although the reconstruction

WORTHY OF CONFIDENCE.
An Offer Backed By One of Our Most Reputable Concerns.

We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. That's a mighty broad statement, but we mean every word of it. Could anything be more fair for you?

A most scientific, common-sense treatment is Rexall Orderlies, which are eaten like candy. Their active principle is a recent scientific discovery that is odorless, colorless and tasteless; very pronounced, gentle and pleasant in action, and particularly agreeable in every way. This ingredient does not cause diarrhoea, nausea, flatulence, griping or any inconvenience whatever. Rexall Orderlies are particularly good for children, aged and delicate persons.

If you suffer from chronic or habitual constipation, or the associate or dependent chronic ailments, we urge you to try Rexall Orderlies at our risk. Remember you can get them in Paducah only at our store. 12 tablets 10 cents; 26 tablets 25 cents.—The Rexall store, W. B. McPherson, Fourth and Broadway.

DIRE DISTRESS.

Neglect hurrying to their aid. Means that urinary troubles follow quickly.

Dire distress, diabetes, Bright's disease.

Profit by a Paducah citizen's experience. J. H. Short, 1602 Broad street, Paducah, Ky., says: "Doan's Kidney Pills gave entire satisfaction in my case and consequently, I do not hesitate to recommend them. I suffered from a dull pain in my kidneys and hips and at times I found it impossible to stoop. The kidney secretions passed very irregularly and their unnatural appearance gave proof that my kidneys were affected. It took Doan's Kidney Pills, procured at the List Drug Co., only a short time to drive these troubles away. I must say that I never used a remedy that acted so promptly and brought such beneficial results."

work which will be required cannot make any sudden demands upon the money market. France is financially strong and optimistic, so that a disaster of this sort will only exert a passing effect. London is becoming more hopeful, and a further reduction in the bank rate is not improbable. Europe is just now exceptionally free of international friction. The situation abroad, therefore, is generally satisfactory from the financial point of view.

At home the situation is somewhat confused by temporary drawbacks. The agitation against the present high cost of living, which has spread like wildfire from the Atlantic to the Pacific, has an important political significance, inasmuch as the discontent which it implies unless checked may easily be the occasion for a great deal of radical and injurious legislation. Already investigations are being initiated that will furnish fresh material for the agitator, and unless some means are found to satisfy this discontent it may easily become a much more disturbing factor than has yet appeared. If an investigation can be conducted free of political animus, it may accomplish much good by provoking discussion and showing what are the real reasons for present high prices. As already stated in these articles, high prices are due to many and very complex causes, and little relief can be expected from legislation. It is largely an economic movement, and one that with time and patience will work out its own solution far better than through any legislative meddling.

EARLY FINISH IS PREDICTED

ALTHOUGH CONGRESS HAS MADE LITTLE HEADWAY.

A Strong Opposition Has Developed to Taft Bills—Uncertain if Taft Will Hold Congress

IN SESSION LATE OR NOT

Washington, Jan. 31.—Although congress has made little headway toward the enactment of important legislation demanded by Taft yet on every side an early adjournment is predicted. The question of what kind of a reception the members will meet if they go to the white house April 15 or May 1 with plans to quit for summer, if the administration program is then unfulfilled, is one which the leaders admit is giving them deep concern. The absence of unanimity on almost all the president's measures makes it exceedingly difficult to work those having such bills in charge. The bills to create a court of commerce, amend the railroad rate laws, to establish postal savings banks, validate the withdrawals of public lands wanted for conservation purposes, and to legalize national charters for corporations doing interstate business, which is placed at the head of the "white house schedule," have all met determined opposition.

From a political standpoint the Republican waters are seemingly muddled by the investigations in progress, and the minority appear willing to let this procedure continue indefinitely. The inquiries into the interior department and forest service are having some effect upon the plans to amend the land laws and enact Alaskan legislation. The investigations relating to second class mail matter and the postoffice deficit and the causes of increased living, all tend to minimize the chances for the complete redemption of the Republican campaign pledges.

A conference of Republican leaders probably will be held after Senator Aldrich returns from Florida. He is expected this week.

Means will be advocated to restore to some semblance of order from the existing chaotic conditions. It is desired to arrange the Taft policies in the order of their preference, as it is thought no progress will be made while some leaders are pushing one form of legislation, and others other measures.

Nobody predicts when the several propositions before the house designed for the elimination of Cannon from the rules committee and for making the committee more representative of the whole membership will come to a "show down."

Several important hearings will be

SAGE FOR DARKENING THE HAIR.
There is nothing new about the idea of using sage for restoring the color of the hair. Our great grandmothers kept their locks soft, dark and glossy by using a "sage tea."

Whenever their hair fell out or took on a dull, faded or streaked appearance, they made a brew of sage leaves and applied it to their hair with wonderfully beneficial effect. Nowadays we don't have to resort to the old-time, tiresome method of gathering the herbs and making the brew. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready made product, Wyeth's Sage and Sulphur, containing sage in the proper strength, with the addition of Sulphur, another old-time scalp remedy. This preparation is sold by all first-class druggists for 50c and \$1.00 a bottle, or is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price. For sale and recommended by W. J. Gilbert.
